DETAILED ACTION

This communication is in response to applicants' request for reconsideration of the rejection of claims 1-10, made in the Advisory filed on 1/29/2004. Applicants' arguments were considered and found persuasive. A new office action is herein.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 3, 4, 8, and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 3, 4, 8, and 9 contain the trademark/trade name HOSP, SILK, FLARE, CORAL, BLACK DIAMOND, Z3MS, and XLK. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case,

Art Unit: 1765

the trademark/trade name is used to identify/describe organic and inorganic dielectric material and, accordingly, the identification/description is indefinite.

Allowable Subject Matter

3. Claims 1, 2, 5, 6, 7, and 10 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The combination of the prior art of record fails to teach or suggest the sequence of steps in a method of forming dual damascene opening in the fabrication of an integrated circuit device, in claim 1 and in combination with the other limitations of claims 2 and 5.

Also applicants have presented persuasive arguments (see pages 6-9 of Remarks filed 1/29/2004) to show that the combination of the prior art of record fails to render it obvious in using the sequential steps of etching a via pattern into said organic dielectric layer through said trench pattern of an inorganic dielectric layer, along with the other limitations of claims 6, 7, and 10, in a method of forming dual damascene openings in the fabrication of an integrated circuit device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynette T. Umez-Eronini whose telephone number is 571-272-1470. The examiner is normally unavailable on the First Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nadine Norton can be reached on 571-272-1465.
